The nipple is a raised region of tissue on the surface of the breast from which, in females, milk leaves the breast through the lactiferous ducts to feed an infant. The milk can flow through the nipple passively or it can be ejected by smooth muscle contractions that occur along the ductal system. The nipple is surrounded by the areola which is often a darker color than the surrounding skin.

Reader's Comments ()Author's Note: Mirkada is a remote city with unusual customs and laws; all women in public places within the city's walls must be restrained; women who are not citizens must also be leashed. Mark and Sally Frost are a couple of Cambridge academics who are fascinated by the city's culture and history.

What about a thread where we share our favourite femiimization stories!? I personally prefer a rather realistic than over the top setting with not too much detail about a dressing up, master/slave, sissy high heels and stuff since this doesn't do anything for the actual feminization process and is rather unrealistic.
