

exercises in workshop mathematics pdf

The Mathematics department prepares students with strong skills in mathematical communication, problem-solving, and mathematical reasoning. This solid foundation enables students to transfer to other institutions of higher education, pursue advanced studies in math or related disciplines, and be prepared with occupational and technical skills to meet the needs of business and industry.

Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.

Problem solving - Wikipedia

You should study simple gear trains to satisfy the course requirements. However, more detailed links have been added below, if you feel there is a need extend your own learning. A series of maths based questions and answers are also included, although these are unlikely to appear in the examination (according to the sample paper).
