McAsphalt Industries Limited October 2012 1 Preface This training manual was developed as part of an effort
to provide a step-by-step procedure for understanding basic asphalt mixture composition, creating mix
designs and recycling processes.

Basic Asphalt Materials Mixture Design and Testing

Comparison of Marshall and SUPERP A VETM Level I Mix Design for Asphalt Mixes by Ihab H. Hafez
Graduate Research Assistant and Matthew W. Witzczak

Comparison of Marshall and SUPERPAVE Level I Mix Design

The asphalt content and gradation test can be used for HMA quality control, acceptance testing or forensic
analysis. The three major test methods, solvent extraction, nuclear asphalt content gauge and ignition
furnace are discussed here. Each method offers a way to determine asphalt content and aggregate gradation
from an HMA sample.. Solvent Extraction ...

Asphalt Binder and Characterization - Pavement Interactive

Asphalt (specifically, asphalt concrete), sometimes called flexible pavement due to the nature in which it
distributes loads, has been widely used since the 1920s. The viscous nature of the bitumen binder allows
asphalt concrete to sustain significant plastic deformation, although fatigue from repeated loading over time is
the most common failure mechanism.

Road surface - Wikipedia

Overview. Asphalt binder content affects HMA mixture performance in the areas of stiffness, strength,
durability, fatigue life, raveling, rutting and moisture damage. Therefore, it is important in HMA quality
assurance, pavement forensic investigations and HMA research.. The ignition test is the most common
method used to determine HMA asphalt binder content.

Binder Content - Pavement Interactive

Goals of Flexible Pavement Design and Construction: " Structure - Provide a structure that has adequate
strength to distribute the wheel loads to the soil without undue deflection, compaction or consolidation.

Introduction to Asphalt Pavement Design and Specifications

Nowadays, only a small percentage of waste tyres are being land-filled. The Recycled Tyre Rubber is being used in new tyres, in tyre-derived fuel, in civil engineering applications and products, in moulded rubber products, in agricultural uses, recreational and sports applications and in rubber modified asphalt applications.
