Student reflection and learning through peer reviews - IIER

This article is about enhancing critical thinking as a crucial aspect of the competence citizens need to participate in society. First empirical research into the question which instructional strategies are –effective™ in enhancing critical thinking is reviewed.

Critical thinking as a citizenship competence: teaching

ABSTRACT. In this paper, Ken Zeichner draws upon his many years of experience as a teacher educator and discusses the use of the concept of reflection in teacher education around the world in relation to three issues: 1) the extent to which reflection has resulted in genuine teacher development, 2) contributed to a narrowing of the gaps in educational quality between students of different ...

A critical analysis of reflection as a goal for teacher

Philosophical value is distinguished from economic value, since it is independent on some other desired condition or commodity. The economic value of an object may rise when the exchangeable desired condition or commodity, e.g. money, become high in supply, and vice versa when supply of money becomes low.
