A robot is a machine—especially one programmable by a computer—capable of carrying out a complex series of actions automatically. Robots can be guided by an external control device or the control may be embedded within. Robots may be constructed to take on human form but most robots are machines designed to perform a task with no regard to how they look.

Robot - Wikipedia

Robots and androids have frequently been depicted or described in works of fiction. The word "robot" itself comes from a work of fiction, Karel Čapek's play, R.U.R. (Rossum's Universal Robots), written in 1920 and first performed in 1921. This list of fictional robots and androids is chronological, and categorised by medium. It includes all depictions of robots, androids and gynoids in ...
