Placemaking and the Future of Cities "Urbanization is the defining trend of the 21st century; by 2030, 75 percent of the world's 9 billion people will be living in cities. And urbanization is occurring most rapidly in places with the greatest lack of planning for urbanization." UN-HABITAT Executive Director Joan Clos i Matheu

Future City Competition - Official Site

According to Detroit Future City, many of these problems will be alleviated by 2065. By then, Michigan's biggest city will look a lot different, if everything goes according to plan. Transportation systems will be improved, vacant space will be repurposed for public use and Detroit will become a beacon of environmental friendliness.
