Sociology is the scientific study of society, patterns of social relationships, social interaction, and culture of everyday life. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. While some sociologists conduct research that may be applied directly to ...

where $(,)$ is now the joint probability density function of X and Y , and $f_X(\cdot)$ and $f_Y(\cdot)$ are the marginal probability density functions of X and Y respectively.. If the log base 2 is used, the units of mutual information are bits.. Motivation. Intuitively, mutual information measures the information that X and Y share: It measures how much knowing one of these variables reduces uncertainty about the other.
